

Sri Comforts — Company Overview

Who we are

Sri Comforts (Sri Comfort Air Products & Services) is a South India HVAC company delivering design, installation, commissioning, and service for commercial, industrial, healthcare, hospitality, IT, and residential spaces.

Key facts:

- Founded / operating since: 2001
- Experience: 25+ years of HVAC excellence across South India
- Footprint: 8 cities with local teams and shared standards
- Team: 230+ engineers and technicians
- Promise: 24-hour service response on complaints and queries
- Delivery model: design-first, service-backed — one partner from survey through AMC

What we deliver

End-to-end HVAC & R solutions, including:

- VRV / VRF systems
- Central air conditioning
- Ductable systems and AHUs
- Clean rooms and cold rooms
- Basement / industrial ventilation
- Precision cooling for IT and critical spaces
- Installation, commissioning, and Annual Maintenance Contracts (AMC)

How we work (summary)

1. Site survey and heat-load assessment
2. System design (including AutoCAD / engineering layouts)
3. Precision installation with phased delivery where buildings are occupied
4. Commissioning and performance verification
5. Ongoing AMC and service support

Brand partnerships

Sri Comforts works with leading HVAC brands and brings design, install, and service execution, including:

- Daikin India — authorized top-tier / authorized dealer relationship (VRV, central air, ductable systems, AHUs)

- O General — authorized partner
- Also referenced portfolio brands: LG and Panasonic

The product brand matters; delivery and accountability are Sri Comforts'.

Values

- Design-first delivery — drawings and site-fit planning before install
- Service without pause — 24-hour response on complaints and queries
- Integrated systems — VRV, central air, clean rooms, cold rooms, ventilation working together
- Partnership depth — authorized brands with end-to-end accountability
