

Sri Comforts — Frequently Asked Questions

General

What does Sri Comforts do?

Sri Comforts designs, installs, commissions, and maintains HVAC systems for commercial, industrial, IT, healthcare, hospitality, retail, and residential spaces across South India. Operating since 2001.

How long has Sri Comforts been in business?

Since 2001 — 25+ years of HVAC excellence.

Where do you operate?

Across South India in 8 cities, with local teams and shared standards. Public materials especially highlight Hyderabad, Bengaluru, and Chennai. Head office is in Tarnaka / Secunderabad, Hyderabad.

How big is the team?

230+ engineers and technicians.

What is your service promise?

A 24-hour response on complaints and queries.

Are you an authorized Daikin dealer?

Yes. Sri Comforts is positioned as an authorized Daikin dealer / top-tier authorized partner since 2001 for VRV, central air, ductable systems, and AHUs. Sri Comforts also partners with brands such as O General, and works with LG and Panasonic in its portfolio messaging.

Getting help / contacting

How do I contact Sri Comforts?

Call +91 40 2700 1342 or use the contact page: /contact.

Where is your office?

12-5-21/1, Vijayapuri Colony, Tarnaka, Secunderabad, Telangana 500017, India.

Can I get a same-day response?

Contact CTAs on the website state same-day response and site assessment calls. For fastest help, call +91 40 2700 1342.

How do I request a technician / report a breakdown?

Use /services/service-request or call +91 40 2700 1342. AMC clients receive priority dispatch.

Do you offer free consultation?

Website forms list free consultation, site assessment call, and AMC plan review as available conversation topics.

Services & AMC

What is AMC?

Annual Maintenance Contract — scheduled preventive maintenance, priority breakdown response, genuine/authorized parts, and documented service history so systems stay efficient year after year.

What does AMC include?

Typical coverage described on the site: preventive inspections, priority response, genuine parts, digital service records, energy optimization during visits, flexible tiers, and compliance/documentation support.

Do you only maintain systems you installed?

The site positions AMC for installed portfolios and multi-site networks; for whether your existing make/model can be covered, contact the team for confirmation.

How fast do you respond to breakdowns?

Company promise: 24-hour response on complaints and queries. AMC clients get priority dispatch / priority ETAs. Critical spaces (hospitals, data centers, production) can be escalated.

Can you handle multi-site portfolios?

Yes. Sri Comforts emphasizes single-partner visibility across sites (including Hyderabad, Bengaluru, Chennai) with consolidated reporting and AMC schedules.

Solutions & systems

Do you do VRF / VRV?

Yes. VRF/VRV design and installation is a core offering for commercial, hospitality, and large residential projects. Sri Comforts highlights a dedicated VRV practice.

Do you do residential AC?

Yes — right-sized systems for homes, villas, and apartments, plus authorized installation and AMC/seasonal service.

Do you cool data centers / server rooms?

Yes — precision cooling, redundancy (e.g. N+1), hot/cold aisle planning, and priority AMC for IT environments.

Do you work with hospitals?

Yes — healthcare HVAC including OT/critical zones, isolation/ICU pressure support, and priority service models.

Do you handle clean rooms / cold rooms / pharma?

Yes — industrial & pharma HVAC including clean rooms, cold rooms, industrial ventilation, and audit-ready AMC documentation.

Do you install in hotels and malls?

Yes — hospitality and retail HVAC focused on quiet comfort, kitchen ventilation, lobbies/public areas, and chain-wide AMC.

Pricing & quotes

How much does a new AC / VRF system cost?

Prices depend on load, system type, building constraints, and brand/model. The chatbot and website do not publish fixed prices. Contact Sri Comforts for a tailored proposal: /contact or +91 40 2700 1342.

How much is AMC?

AMC is quoted by unit count, criticality, and response requirements. Ask for a tailored AMC plan via /contact or /services/amc.

Is the tonnage calculator a final quote?

No. The AC Tonnage Calculator (/resources/ac-tonnage-calculator) is a free planning aid. Final capacity should be confirmed after a proper site/load assessment by Sri Comforts.

Process & quality

What is your process?

Survey → design (AutoCAD / engineered layouts) → phased install → commissioning → AMC/lifecycle support. Details: /services/how-we-work.

Do you work in occupied buildings?

Yes. Delivery is often phased around occupancy to reduce disruption (commercial fit-outs, hospitals, hotels, etc.).

Who does installation?

Factory-trained / authorized technician teams following manufacturer standards for charge, vacuum, and commissioning (as described on the site).

Do you provide drawings?

Yes. Design-first delivery includes detailed engineering / AutoCAD drawings and site-fit planning before install.

Website tools & resources

Is there a tonnage calculator?

Yes: /resources/ac-tonnage-calculator

Where can I read guides?

Blog: /blog (topics include sustainability, maintenance tips, energy efficiency, buying guides, project spotlights).

Can I download a company overview?

Yes — product/company overview download is promoted on the Contact experience (/resources/product-overview).

Are you hiring?

Yes — see /career for openings (e.g. HVAC Design Engineer, AC Service Technician, and general applications).
